SUMMARY

Financial analyst with 9+ years of overall professional experience, an MBA in Finance and ongoing employment at Elnilein Bank since 2018. Worked primarily in Branch Management, preparing branch reports and gaining exposure to treasury-related reports. Experienced in cash flow forecasting, financial analysis and Excel automation, including reducing daily reporting from more than six hours to under 30 minutes. Understands the importance of Know Your Customer (KYC).

EXPERIENCE

Financial Analyst | Elnilein Bank, Sudan | 2018 - Present

- Worked primarily in the Branch Management Department, with some branch-level experience; reviewed a range of reports and prepared reports specifically for branches.
- Cut daily financial report preparation from more than six hours to under 30 minutes through Excel automation; received appreciation from the General Manager.
- Built Excel models to forecast cash flows and branch profit and loss, supporting liquidity planning and financial performance reviews.
- Prepared monthly branch performance reports, analyzed historical and current financial results, and identified trends for management recommendations.
- Designed a weighted evaluation framework using 15 KPIs across approximately 40 branches, including rankings and automated branch performance letters.
- Supported feasibility assessments for new branches through financial projections; developed Excel tools for salary-cost calculations and operational reporting.
- Gained exposure to treasury-related reports within Branch Management and an understanding of the importance of Know Your Customer (KYC).
